

My snowman has three snowballs. The bottom one is light blue and the largest snowball. The middle one is green and a little bit smaller than the bottom one. Then the head is red and the smallest of all. The bottom snow ball has five green buttons. The middle one has four red buttons and the button next to the bottom is a little off towards the left.

My snowman has rather long black arms with three fingers. He has a mouth with five buttons and an orange triangle nose with the point towards the right. He also has two black eyes and a black top hat. The picture has a yellow sun in the top right corner with rays shining down. And the back ground color is an even lighter blue than the bottom snowball. I hope that you enjoyed making my snowman.
